- Friday, 4th September 2009:

Discussions and/or aquaculture tours if requested by participants: offshore aquaculture cages in Saint-Paul Bay, freshwater hatchery, recirculation systems technology in marine hatchery...

You will not be charged for this workshop. ARDA is organising and funding:

- transportation from St Denis to St Gilles on Sunday 30th August
- transportation from the hotel at St Gilles to the conference venue every day of the workshop
- transportation back to St Denis (airport) after the workshop on the 5th of September.

We can fund neither accommodation nor lunch, dinner or refund change in plane tickets.

But if requested, we can book a hotel room for you in St Gilles (35 euros per person per night).

If you wish to attend this workshop, please contact Sophie Vermond (sophievermond@hotmail.com) before the 3rd August 2009, explaining your background and why you are interested in this workshop.

We won't be able to welcome more than 15 persons. Priority will be given to people involved in the development of aquaculture projects or coastal areas management.
